FRANK CLEWS, Treasurer

DANBURY VOLUNTEER FIRE DEPARTMENT

On the thirteenth anniversary of the organizing of the Danbury Volunteer Fire Department the Commissioners and Chief wish to extend our sincere thanks to all Officers, Members and all Committees that served, helped to maintain and support the Fire Department this past year.

To the taxpayers of the town we wish to extend our very sincere thanks and appreciation for your very kind generosity in supporting us these past three years by voting an extra (\$500.00) Five Hundred Dollars over our original budget to purchase new 2½ in. hose. This supply of new hose we needed very badly to replace some of the old which was broken and to increase our supply in case of a long stretch to a fire from the source of water.

This year we are putting an article in the warrant asking for our original sum of (\$500.00) Five Hundred Dollars for operating expenses to maintain the Department.

Hoping this sum will meet with the taxpayers approval, we sincerely thank you again for your loyal support in the past.

Don't forget IN CASE OF FIRE — Call Porter 8-2513 or Porter 8-2571 or Porter 8-2573,

ELMER GRACE, Chief

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note. 58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners. 10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden - the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles - use your ash tray.
5. Don't burn at home - Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires	3
Number of acres burned	3
Number of permits issued	35

PUBLIC HEALTH NURSE

Each year I send a brief report of the public Health nursing done in the area in which your town is located. During the year of 1959 I have made home visits to the following: infants, preschool children, adults, prenatals, postnatals, cardiacs, cancer cases, Nursing homes, retarded children, and orthopedic cases. This is only a partial list of the services offered.

Fluoride programs for which preschool children are eligible were held for Sutton, Newbury, Wilmot and Salisbury. Total attendance was 87. Fluorine is a substance that makes teeth more resistant to decay and children receive topical applications at these clinics. I plan to offer these programs to each town every two years.

Immunization surveys are done every two years by local citizens. The child health committee in your town is composed of three members: Mrs. Jean Wells, Mrs. Mrs. Annie Walker, and Mrs. Thomas Lopez. The percent of immunized children in Danbury indicates that most parents realize this protection is important and are taking their children regularly to the family Doctor. The well child clinic in Bristol and Canaan is open to residents of Danbury and last year many attended. Three received triple toxoid, 34 received polio injections and one was vaccinated.

NEL GETCHEL, Public Health Nurse

AUDITOR'S REPORT

We, the undersigned auditors of the Town of Danbury, certify that we have examined the foregoing accounts of the Town of Danbury for the year ending December 31, 1959 and find them correctly cast and properly vouched for.

SUPERINTENDENT'S REPORT

The basic need of a modern school plant is as great today as it ever was. I believe that almost everyone believes this to be true. People differ on the details of this or that item until no agreement can be reached. This brief report is an appeal to the voters of Danbury to consider the need and to the voters of Danbury to consider the need and to vote favorably for a new school building.

Furthermore it is my belief as the result of some experience with buildings, with people, and with various committees, that the voter must place a great deal of faith in the school board and in a building committee to advise the school board and entrust them with the power to make the necessary decisions taking into consideration the many factors in any given instance and using good common sense to do what is best under the circumstances. For anyone to decide that such a site at any price must be had, or that a bond issue can be sold for any given rate, or that a certain sized building can be built for exactly a certain amount is not consistent with actual practises. Maybe a second best site at considerably less money is the "best bet" in the end. Interest rates are subject to bid or negotiation or both. In the actual construction of a building it is sometimes desirable to change some things.

I also believe that an architect to design and oversee the building will in the long run more than earn his fee and produce a better building.

Since a building need was first mentioned in these reports interest rates have almost doubled, costs have steadily advanced. There is nothing in the national economy picture to point the way to anything but continued increases. A ten year delay has cost plenty; in fact every year has cost something.

Perhaps the only bright picture during this interval has been better, more simple, and more functional building design. These are real gains.

Some changes have been made in the law. A district may now borrow 7% of its assessed valuation as equalized (\$71,894) and the special board of investigation has been eliminated.

Once again the Danbury voter has the answer. The choice is yours.

Respectfully submitted,

C. MAURICE GRAY
